NEW YORK, August 26.
The Times' special says: The pardon granted to A. Dudley, President of the Richmond and York River Railroad has been revoked. Major Eckert is Acting Secretary of

War during the absence of Secretary Stanton, who is at West Point. The Tribune's dispatch states: That General Grant remarked, recently, that sufficient evidence had been adduced, during the late conspiracy trial, and since, to convict Jeff. Davis of complicity in the assassination of the late President Lincoln, and that the fate of the conspirators settled that of Jeff. Davis. Legal proceedings will soon be instituted against Major Hallock, of Washington, to make him disgorge the funds for the

colored schools.
Sergeant McHough has been found guilty of complicity in the recruiting frauds, in connection with the bounty brokers in New York, and sentenced to be drummed out of the service, with the loss of all pay, &c., fined ten thousand dollars, and prisoned three years at hard labor.

The Herald's Washington dispatch states that the Emperor Maximillian recently sent a letter of condolence on the death of Mr. Lincoin to President Johnson, but the letter was refused acceptance, on the ground that no such person as the Emperor of was selved at Madison Dock for non-pay-Mexico is known or recognized. ENGREMENT IN PANAMA. NEW YORK, Aug. 26, Panama dates of the 16th state that that place is greatly excited by an expected invasion from Canea. Business was paralyzed and a military impressment was going on, and a force loan was being col-lected from merchants. The rebellion in

Peru was still maintained strongly. The Brownsville, Texas, correspondent of the Herald, of the 8th says: An ex-rebel officer bossted that Sterling Price had been a Major General of Maximilian's troops, and was empowered to raise a Cavalry force of 30,000 from the disbanded rebel armies. Also that several other rebel Generals had been commissioned by Maximil-ian, and it was intended to have 100,000 rebels in Maximilian's service within a year, to keep watch of Sheridan on the Rio Grande. Everything is quiet on the American side of the river.

Our officers at Brownsville recently gave a banquet to the Emperor's officers, to-gether with General Slaughter and several other ex-rebels. It is almost a universal belief among the

American officers that they will be immediately ordered to move into Mexico. It is reported that about a dozen desert ers from the American army and navy have been engaged in piratical operations on the coast of Honduras, having murdered the crew of a small schooner, and subsequently capturing other vessels with it. They were last seen near Cubs, with an English vessel in pursuit.

MORRIBLE MURDER. PITTERURG, Aug. 25.

Our city has been thrown into intense excitement for the past two days, by the discovery on Thursday morning, on Boyd's Hill, in the Eight Ward, of the remains of a man with his throat cut from ear to ear, and body terribly mutilated by numerous wounds. Most active exertions have failed to give any clue to the identity of the mur-dered man or perpetrators of the deed. Body

Several persons are under arrest on but alight grounds of suspicion. Yesterday the excitement was rendered more intense, if possible, by the arrest of a Mrs. Grinder, charged with persistent and quiet poisoning, apparently without motive. Three persons, who were guests in the prisoner's house, at different times, have died (it is supp sed) from the effects of poison, and another victim is in a critical condition. The supposed poisoning has been going on several months. An investigation is pending.

Paroled prisoners asking passports as citizens of the United States, against whom no special charges may be pending, will be furnished with passports upon application at the Department of State. The passes will be issued on condition that they do not return to the United States without leave

MUNICAL INSTITUTE. It has been announced that a Musical Institute will be immediately established in Oberlin, so connected with the college as to be in factan additional department thereof. It will be under the superintendence of Messrs. John P. Morgan and Geo. W. Steele. Embracing two departments, -of sacred mu sic, with instruction on the organ and practies in composition, &c., and secular music, with instruction on the piano, &c., Ac.,the former will be managed by Mr. Morgan, the latter by Mr. Steele. The course wil occupy three years. Probably no place in the country offers superior advantages for obtaining a thorough musical advestion and mastery both of the science and the art of

In this connection we will give our read ers an account of the ORATORIO OF CREATION as performed by the Musical Union, which for some reason did not reach us in time for

our Saturday morning's issue: OBERTIN, Aug. 25th, '65. EDITORS LEADER: The Oratorio of the "Creation," the greatest work of the father of modern music, Joseph Haydn, was performed in Oberlin by the Musical Union, for the last time, Thursday evening. It was on the whole the most effective of the saveral renderings we have had this season, The Chorus, numbering over one hundred and fifty, is perhaps under better training than it has ever been before, and has arrived at a perfection which is rarely attained by such large bodies of singers. The gradit of this is due to Mr. John P. Morgan, who, finding the Association in an almost chaotic situation, three months ago, by unremitting industry has raised it to its present standard. Praise is also due to Mr. G. W. Steele, whose organ accompaniments have added no little to the general success. Of the soloists we must bestow especial commendation on Miss Lizzie lates, whose magnificent voice has ever been a favorite here. The two Basseoloists, Mesars. G. W. and W. H. Morgan, have voices of extraordinary power, and which only lack cultivation to become entirely unexceptionable. The Tenor, Mr. L. H. Latham, of Sandusky, though his singing has in some respects been criticised, deserves praise for an uncommonly good in-

tonstion. The "Creation" opens with an overture representing Chaos, at the conclusion of which, after a short recitation, the choruscomes in pianissimo, at the words: "The spirit of God moved upon the face of the waters," with an effect indescribably delicate. This passage is one of the gems of the oratorio.

The successive creations of the first four days are then narrated in order. The soprano air, "With verdure clad" was finely done, and the chorus which ends the first part, "The Heavens are telling," is exciting beyond measure. The second part describes the creation of various animals, and finally of Man. The accompaniments here are highly descriptive, and Mr. Steele's mastery of his instrument was strikingly shown. The crowning beauties of this part was, in our opinion, the trio "Most peautiful appear," etc., and the final chorus and trio, "Achieved is the glorious work."

Both these were splendidly rendered. The subject of the third part is the delight of the newly created pair, Adam and Eve, and their gratitude to the Creator. We were especially struck with the duet. By Thee with bliss," in which the soft chorus accompaniment is most beautifully need. The oratorio ends with a splendid fagued chorus, "Sing to the Lord," which, in dignity and grandeur, is well worthy to close so noble a work.

We are glad that the Union have presented us with the oratorio. Such music is in every respect refining and ennobling, and its frequent performance is precisely what is needed to elevate the standard of taste throughout the country. We understand that we may soon expect the " Messiah" from the same Association. If the present atandard of drill is kept up, this will be a treat which no one can afford to D. F.

From your articles on the growth of Cleveland, it is judged that the increasing population must shortly seek residences in the neighborhood where they can have easy access to the city for the transaction of business.

There appears to be at present a dearth of residences in the city, and many who would otherwise locate there are driven elsewhere to invest capital and enterprise, which, were the demand for dwellings and places of business supplied, would greatly add to its population. It is to supply this demand that street railroad, in addition to those leading east, is required. Many peo-ple wish to be in the country where, after business hours, they can escape from the heat, dust and turmoil of the city; where they can enjoy the freshness, the healthy air of the country and sweet communio with nature; where they can bring up thair families in health and vigor, free from the contaminating influences of the city. There is no question but that the Detroit street road, settled as it is, would soon fill up until there would be a continuous gardan and villes from the Comphete Device. ten and village from the Cuvahoga to Bocks River. Many families now estiled on the road, whose heads do business in Cleveland, would not exchange their habitations for

any in town.

The proposed road would afford easy access to business; the inhabitants would have the full banefit of schools, churches, lectures and all amusements; in fact would have all the advantages of town and coun-

The constantly increasing summer travel is apparent to all, and the railroad once built would be thronged by pleasure seek-ers, assisting to make Rocky River what it

ars, assisting to make Rocky River what it is designed to be and perhaps already is, the most popular resort for pleasure in Northern Ohio.

Will it pay? The experience of all other roads of the kind leading out of eastern cities, as well as about Chicago, Lonisville, 8t. Louis and Buffale, is, that the roads once established, there has sprung up an increasing demand for lands and tenements, and the population and travel have extended into the country to the advantage of the road and the property owners in the neighborhood. neighborhood.
This road will certainly be built ere long; it is a sure thing, a "big thing," viewed in whatever light it may be. The interest and confidence in it are so great that it merely

requires form given it to have an irresisti-ble impetus that will put through the pro-ject at once and in spite of everything.

GALA DAY ON THE WEST SIDE. At ten FINANCIAL & COMMERCIAL. 'clock this morning, Dan Rice's Mammoth Menagerie will make a grand parade through the principal streets on the West

Side, to the place of exhibition on Taylor street, near the reservoir. Such an opportunity seldom occurs to our citizens residing on the West Side, for visiting so a The market is still comparatively quiet, however complete, varied and extensive an exhibition of scological wonders. The mammoth pa-willon will be open both afternoon and evening, at two and seven o'clock and we have no doubt will be as liberally patronused as it deserves to be. Dan Rice will positively be present at each exhibition and introduce his wonderful trained animals.

This Mammoth Mecagerie will exhibit on Tuesday on Erie street, East Side, thus affording an opportunity to the East Siders of visiting this mammoth exhibition.
